LIQUIDATION IS CAUSE OF WEAK STOCK MARKET

Canadian Pacific and U. S. Rubber Lead in Downward Trend; Foreign Interests Figure in Day's Trading.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, June 24.—Unmistakable signs of liquidation, mainly for foreign interests, was the conspicuous feature of today's weak stock market. Canadian Pacific and United States Rubber were persistently sold. Canadian's low price of the day was 145½, a maximum decline of 3½ points and the lowest quotation since 1908. Rubber was offered at steady recessions, with a loss of 8 points, closing at 54½.

Reports dealing with the dividend prospects of these properties were mainly the cause of their weakness.

Next to United States Steel, declines in rubber were the largest of any issue, today's sale of 47,000 shares exceeding total sales of that stock for many days. Steel held fairly steady in the face of constant pressure until the final hour, when it recessed.

Reading was the only other leader to manifest weakness, but coppers and some of the war shares broke 1 to 2 points. The reversal was quite orderly on a small overturn of business activity being limited to the first half hour and the close.

Imports of gold from Canada resumed, another $2,500,000 being received, making a total of $50,000,000 from that source since the early part of May. Exchange on London was again firm, but Paris checks repeated yesterday's low rate of $5.49.

Foreign selling again contributed to the heavy tone of the bond market. Total sales, par value, $6,595,000.

United States bonds were unchanged on call.

CHICAGO BOARD OF TRADE.

Chicago, June 24.—Fading of hopes that foreigners would buy on a liberal scale resulted today in lower prices for wheat after an early advance. The market closed heavy at ⅜c to ⅞@1c net decline. Corn finished ⅝c to 1@1⅛c down; oats off ⅜ to ⅝c, and provisions at a loss of 7½ to 20c.

Announcement that Great Britain was in a position to draw supplies from 64,000,000 bushels of government controlled wheat in India had a good deal to do with development of bearish sentiment late in the day. Absence, however, of any trace of fresh business with Europe proved still more discouraging to holders, especially as reports of clearing weather in the southwest tended to remove chances that trans-Atlantic demand would be aroused by storms interfering with the progress of the domestic harvest. Attempts to unload showed that the market had virtually been deprived of support.

Heavy rains in Kansas, Oklahoma, Missouri and Nebraska gave the bulls unchecked control of the market at first. Higher cable quotations tended further to lift prices and so also did predictions of lighter world shipments this week. The ensuing reaction, though, left prices in the end with all gains more than wiped out.

Purchases of Argentina corn at the seaboard exerted a depressing influence on that cereal. Bullish reports regarding the domestic crop failed to have more than a temporary effect.

Oats declined to a new low record for the session. The possibility was pointed out that the government report for July might indicate a yield surpassing in quantity any previous total known.

Provisions weakened because of signs of heavy deliveries on contracts for July pork. A sharp advance in the hog market was ignored.

Closing prices:

Wheat—July, $1.03¼; Sept., $1.01.
Corn—July, 73¼c; Sept., 72½c.
